Jennifer, attached is the presentation. I made two changes to the presentation that I believe were inaccurately presented at the meeting - both on slide 4 (AOPC Refinement). I deleted the bullet that indicated that AOPC 5 needed to be modified based on the cadmium detection in the river channel and I deleted the reference to endrin ketone as requiring a change to AOPC 4. AOPC 4 should still be extended downstream to capture the DDX detection offshore of the BPA powerline corridor.

Please be aware that this presentation was developed for discussion purposes only.

Let me know if you have any questions.

Thanks, Eric

Eric, Chip,

May I please get a copy of EPA's presentation from yesterday's Risk Management Framework check in?

Thank you,
